- Studied historical data of the market stock index and tested for better investment strategies.

PROJECTS

FreshDigger — *Correcting the dollar outflow in the economy*

Developed an application that directs users who want to sell their dollars to nearby lebanese businesses that need dollars in order to run their operations:

- Frontend: React Native
- Backend: PHP, Laravel, MySQL

PROFILE

My background is proof that I can distinctly think in a logical and deep way to solve problems. I am now combining this talent with enough technological skills to fix problems that I observe around me.

TECHNICAL SKILLS

Programming Languages // Python, PHP, JavaScript, MATLAB

Database Management Systems // MySQL, Firebase

Frameworks and Libraries // Laravel v8.x, React, React Native, JQuery, Ajax, Bootstrap 3, Windows OS

Tools and Cloud Services // MySQL Workbench, Postman, Figma, GitHub, AW EC2

Theory // Data Structures and Algorithms, Complexity Analysis, OOP

Theory // MVC

CERTIFICATES

Using Databases with Python (SEP 2020) – from the University of Michigan

Using Python to Access Web Data (JUL 2020) – from the University of Michigan

HOBBIES & INTERESTS

Hiking, Dancing, Reading
